Madrid Despatch Says the Spanish Cabinet Considers the Protocol as Satisfactory and Will Sign It.

pecial to EVENING HERALD.

London, Aug. 11 .- A Madrid special just received says that the Spanish Cabinet held an important session to-day and considered in detail the features of the protocal, which was cabled in eigher from Washington yesterday by M. Cambon, the French ambassa dor to the United States, and who is acting for the Spanish government in the peace negotiations.

The protocol is entirely satisfactory to the Spanish government, and authority to sign it will be sent to Minister Cambon at once. It is expected that hostilities will cease

mmediately. There is perfect understanding as to evacu-

ation of Spanish troops from Cuba and Porto Rico. Spain is to be allowed to evacuate the islands with all the honors of war, the troops taking with them their arms and equipments. They may not all leave until the close of the miny season, and the American troops are to replace Spain's as fast as the latter depart.

There is no reference to the Cuban debt, and the commissioners to be appointed will confine their efforts solely to the Philippine

PEACE PROTOCOL

The Outcome of the Negotiations With Spain.

HOSTILITIES STILL CONTINUE

An Armistice May Come After the Document Is Signed.

PROBABLE PEACE COMMISSIONERS

The Representatives of This Government Will Be Appointed as Soon as the Protocol is Submitted to the Spanish Government For Approval-No Hitch Feared. Navai Officials Have Made Up Their Minds Peace is at Hand, and Are Planning For a Reduction of the Navy to a Peace Rasis

Washington, Aug. 11.—The preliminary negotiations looking toward the confirmation of peace advanced a long step yesterday when the secretary of state and the French ambassador agreed upon the terms upon which future negotiations for a treaty are to be conducted and reduced these to the "Father McKinnon, o form of a protocol. This protocol, it is true, is yet to be signed and is to be submitted to the Spanish government before the formal signatures are affixed, but the administration's view as to the progress made was set out in Secretary Day's sentence: "It is expected that this protocol will be executed. There is always the possibility in deal These instructions are given in the belief ing with the Spanish government that that Spain has instructed M. Cambon for Spain. The delay will be largely attributable to physical causes rid through the French foreign office. terday afternoon, after it had con-sumed the best energies of Assistant Secretary Adee, of the state depart ment and M. Thiebaut, secretary of the French embassy.

It is apparent the consumption of time involved in purely mechanical functions will be so considerable as to make the rendition of a very early

answer improbable.

As to the character of the protocol it can be stated on authority that the terms are in all practical points those set out in the abstract of the presi-dent's conditions published from the White House a week ago. fact it is deduced that the extra conditions or qualifications sought to be imposed by the Spanish government were abandoned at least in large part by the French ambassador, It is be-lieved that the protocol carries within itself provision for the cossation of hostilities. On this point the naval contingent is urgent that our government adopt the Napoleonic policy of refusing to enter into an armistice without acquiring some substantial pledge to se-cure the consummation of peace, What they particularly desire is that our gov-ernment shall demand as a condition of the cessation of hostilities the surrender to the United States military forces of Morro Castle at the entrance of Havana harbor and some such points of vantage at the other important ports in the territory soon to fall under our control.

The peace negotiations are now be-lieved to be advanced to a point where the president has felt warranted in turning his attention to the selection of the commissioners to be charged by the United States with the drafting of a treaty of peace. But one name has been positively determined upon, namely, that of Secretary Day, who will head the commission. Beyond that point there is no certainty. Mr. Woodford, of the names that finds universal approval is that of Mr. Eustis, ex-ambassador to France, whose staunch Americanism, combined with diplomatic knowledge and legal ability, are urged as fitting birn especially for apulation of the company range to make it so after repeated notice. A step was made in this direction yes-terday by the submission to the president of recommendations by the sec retary of the navy for the advancement of all of the officers of Samp-son's fleet who distinguished themselves. It was announced some time ago that a board would be appointed to decide on all promotions to be rec ommended, but for some reason this plan seems to have been abandoned so far as some of the chief officers were concerned.

General Merritt's force in the Philippines is to be increased by the 7,000 troops now at San Francisco, which will be sent as soon as transports can be obtained. Secretary Alger says that 2,000 troops will sail at once. The department has not sufficient transports at hand to convey the remaining 5,000 at present, but the secretary says with those already arrived and on the sex, together with 2,000 which are to leave SWELLLING San Francisco at once, General Mer-ritt will have a force of 18,000, and there will be no hurry for the embarkation of the remaining troops. The department has had an offer of two ships to transport the troops, but con sidered the price asked excessive, and It is probable the return of the trans-ports that first went to Manila will be

The following is the official list of the re-cruits who were sworn in to-day and left for Camp Lithia Springs, Georgia, together with their birthplaces as given when they applied Terence McClain, Shenaudosh.

Wm. Coleman, Eckley. Wm. H. Lindenmuth, Ringtown. Peter J. Bohr, Shamokin. Irvin Reigel, Shenandoah Arthur S. Smith, Gilberton Marion Zatsnewski, Russia.

The men who went away numbered thirty in all, making a total of eighty-six men who have been sent to the South from this town during the last two days. The crowd that assembled at the Pennsylvania Hailroad station this afternoon to witness the departure of the recruits on the 2:02 train was not as large yesterday, but it was a big gathering. The platform at the station was crowded and the mbankments at the rear looked like a grand stand at a championship league base ball game. Weeping men, women and children were on hand by the score to bid farewell to sons and brothers. The squad was in command of Arthur Tregembo, the young man who organized and drilled Volunteer Company A in town recently. There were some rather pathetic scenes at the depot before the train bearing the recruits made a start. Samuel Thomas, a veteran of the il war, was among those who pushed through the great crowd toward the train un il he reached his son, William. The father carried an American flag. His eyes were filled with tears as he caught his son by the arm and said, "Here, boy, take this flag. I went to the front and fought for it. You do

Lithia Springs, Georgia, Aug. 8, 1848.

"We arrived safe and sound, though perhaps a little bit tired from the long ride. The boys all feel well and are delighted with the southern states. We are 1,200 feet above the sea level and 'it's an ideal camping place. It goes to prove that regular army officers know how to take care of their men. We bave good lithia water to drink and plenty to eat. The camp is visited every day by men selling sweetmeats and the boys generally are good customers. One of our men was bitten by a snake and he is now in the bospital. He is getting along nicely and will be out in a day or two. We have one of the finest sergeants in the command. His name is Hansom.

"We get up every morning at 5 o clock, eat breakfast at 6, diuner at 12, and supper at 0 o'clock. Drill is held at 7 o'clock in the morning and from 4 to 5 in the evening. twice every day.

"In the afternoon we sleep, go swimming or down to Lithia Springs. There are about 1,000 soldiers here, so you see we don't want for company. It isn't any warmer down here just now than in Williamsport. The breezes are somewhat cooler and the evenings are real chilly.
